

# Remote Telemetry Monitoring Services

Advanced ICU Care Remote Telemetry Monitoring Services offer 24/7 continuous telemetry monitoring by trained and certified technicians, allowing you and your patients to realize reduced complications and headaches by partnering with a scaled high-acuity telemedicine partner.

## ADVANCED ICU CARE OFFERS YOU:

- 24 X 7 REMOTE TELEMETRY MONITORING
- TRAINED AND CERTIFIED TELEMETRY TECHNICIANS
- RAPID RESPONSE COMMUNICATION TO YOUR CARE TEAM
- QUALITY CARE FROM THE LARGEST AND MOST EXPERIENCED HIGH-ACUITY TELEMEDICINE PARTNER IN THE COUNTRY.

## YOUR HOSPITAL BENEFITS FROM:

### BETTER RESULTS

Constant monitoring for your at-risk patients across the entire hospital or specific to selected units or floors.

### IMPROVED COST STRUCTURE

Competitive cost solution, with no need to hire, train, and manage a dedicated team nor develop critical technology. Ability to flex staffing, depending on your census and patient risk profile.

### ENHANCED RESOURCE UTILIZATION

Opportunity to focus patient care staff and delegate monitoring to an experienced and trusted partner.

### USE OF YOUR EXISTING TELEMETRY PLATFORM & SYSTEMS

No need to implement new software or hardware.

### ADDRESS CRITICAL SAFETY RISKS AND GOALS
